PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2+ years' professional experience in ASP.NET Core 8, Unity game development, and Android apps. Skilled in C#, Java, PHP, JavaScript, and SQL. Proven track record delivering secure, high-performance internal systems in Agile teams.

PROFESSIONAL EXPERIENCE

NHS Foundation Trust - The Royal Orthopaedic Hospital

Apr 2024 - Present

Systems Application Developer

I design, develop, and maintain bespoke internal systems. I work end-to-end on projects, handling requirements gathering, planning, development, testing, and deployment. My work directly supports clinical and administrative teams by streamlining workflows, improving data accuracy, and increasing efficiency.

PROJECTS

Patient Listing Portal

Royal Orthopaedic Hospital NHS Foundation Trust | 2024 – 2025

Tech Stack: ASP.NET Core 8, MVC, EF Core, SQL Server, C#, JavaScript, HTML/CSS, TFS

Designed and built a digital portal to replace paper-based patient listing forms for Oncology, Radiology, and Elective Procedures. Developed role-specific workflows for Clinicians, POAC, and Medical Secretaries, enabling efficient multi-stage submissions and reviews.

- Delivered two systems: Oncology/Radiology (2024) and Elective Procedures (2025)
- Led planning, development, testing, and deployment independently
- Improved processing speed and accuracy by digitising and centralising data

Results Management System – Birmingham Badminton League

Personal Project | 2023

Tech Stack: PHP, SQL, JavaScript, HTML/CSS, XAMPP, VS Code

Designed and developed a prototype system to automate league result processing for the official Birmingham Badminton League. Replaced a manual workflow involving WordPress editing and spreadsheets with a streamlined CSV-driven process.

- Automates scorecard validation, result calculation, and league table updates
- Reduces admin workload by instantly processing match outcomes via CSV upload
- Built complete end-to-end: planning, development, testing
- Demonstrated strong logic implementation through custom match result algorithms

EDUCATION

Bachelor of Science in Computer Science

Sept 2018 - Jun 2023

Aston University (Upper Class Honours Degree)

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals | Clean Architecture .NET Core | ILM Level 5: Leadership & Management | DevOps Culture & Methodologies | QSIR Practitioner

SKILLS

Languages: Java, C#, PHP, Python, SQL, JavaScript, HTML, CSS

Frameworks: ASP.NET/ASP.NET Core, Angular, React, Laravel, Bootstrap, Material UI

Databases: phpMyAdmin, MySQL, MS SQL Server, SQLite

Developer Tools: Git, Visual Studio, Unity, Eclipse, Android Studio, Xampp
